You're INVITED

An information session for the newly-formed

High Performance Computing (HPC) Student Group

Friday, January 18, 2019 @ 2:00 PM – 3:00 PM
SDSC Main Auditorium

Directions: exit parking to the east via stairs or elevator in the south/east corner of structure, or exit structure and turn left past the parking structure. SDSC is next building on the left.

PIZZA will be served!

The group will study advanced HPC topics including

Building a Supercomputer	Software Optimization
Scientific Computing	Parallel Code at Scale
Cloud Computing	Applied Data Science
Container Technologies	Environmental Modeling
GPU Accelerated Computing	Deep Learning

Students of all experience levels and majors who are interested in HPC are invited to attend, including

Applied Mathematics	Data Science
Bioengineering/Bioinformatics	Economics
Cognitive Science	Electrical and Computer Engineering
Computer Science and Engineering	Environmental Systems
Computational Physics	Social Sciences/Arts/Humanities
